Superintendent's Report

To the Citizens of Sandwich:—

I hereby submit my third annual report as superintendent of schools, it being the fifth in the series of such reports.

Schools Stand Well

During the year Arithmetic and Spelling tests have been given to many eighth grades in New Hampshire. These tests were given in Springfield, Mass., in 1846. The arithmetic was given in New Hampshire exactly as it was in Springfield. The spelling words were replaced by words of equal difficulty taken from lists used today. The pupils in Springfield averaged 15 years, 6 months; the New Hampshire pupils averaged 13 years and 6 months. Springfield schools were among the best in those days. Comparing the results, we find that in Springfield in 1846 the pupils averaged 21.41 per cent in arithmetic and 40.65 per cent in spelling. In New Hampshire last fall the pupils, though two years younger, averaged 49.26 per cent in arithmetic and 67.24 per cent in spelling. In Sandwich the eighth grades averaged 47.5 per cent in the arithmetic and 77 per cent in spelling. We are close to the state average in arithmetic and considerably ahead in spelling. We are a long way ahead of the schools in Springfield in 1846.

Rural Schools Gain in New Hampshire

In 1918 the children in many poor towns had 70 days schooling to the city child's 100. Last year they

had 95 to the city's 100. In 1918, one teacher in five in the one-room rural schools was equal in education, experience and training to the average city or village teacher. Last year the ratio was one to two. In Sandwich this year, one of our elementary teachers came as a recent graduate from Keene Normal School. Three others attended school at Plymouth Normal during last summer. In the Quimby School, one comes as a recent graduate from Framingham Normal School in Massachusetts and the other, a graduate from University of New Hampshire, spent several weeks during the summer in preparation for special work. All this shows a live professional spirit among our local teachers.

Repairs

The improvement of school property has not been forgotten. Screens have been provided for several schools. New heating arrangements have been installed at the Center Schools and a sheltered passage provided to the toilets. A cement platform in front is covered with a porch protecting the front door.

The superintendent is anxious that all school buildings in use be put in model condition, with proper heating and ventilating systems and sanitary toilets. Slate blackboards are very much needed in several buildings.

Quimby School

It is a cause for delight and rejoicing that the trustees of the Alfred Quimby Fund decided to establish a high school in Sandwich to be known as the Quimby School. The school opened for first and second year pupils in September, 1923, and secured an enrollment

of twenty. Courses in agriculture and farm mechanics are given for the boys and domestic arts for the girls. At the same time courses are offered in such subjects as English, French, history and business practices which fit pupils to go to the University of New Hampshire if they desire. Best of all, this school looks to the fitting of boys and girls for successful and happy lives in the home town. As a typical example, two boys have become especially interested in the forge work of the farm mechanics course and wish to follow up this kind of work. Among the girls should be those who would become thrifty home-makers and some who would later train as teachers to fill the vacancies in our rural schools.

We wish to extend special thanks to the trustees who have spared no pains to provide a school home and all necessary equipment. Here is a set of buildings where the practical arts work may be carried on under very ideal conditions. Adjoining land may be utilized for experimental purposes in the spring. This is the only school in Carroll County offering a course in agriculture—the most fundamental industry in our national life.

It has been necessary to close Durgin School because of lack of pupils. It is much to be regretted that families cannot be found in this section whose children would fill this school. If we are to have a live town, we must have families and growing children. Fields without inhabitants are barren wastes.

I still appreciate the co-operation of the School Board, teachers and citizens of Sandwich. We must work together to raise our percentage of attendance and boost our schools still higher. The following pupils

had perfect record of attendance for the year ending June 30, 1923.

Martha Weed—Durgin School.
Elizabeth Weed—Durgin School.
Leila F. Cram—East Sandwich.
Elwin Graves—East Sandwich.
Dorothy Graves—East Sandwich.
Ellsworth Smith—Center Grammar.
Rosalie Quimby—North Sandwich.
Orrin Tilton—Lower Corner.

Respectfully submitted,
F. W. JACKSON,
Superintendent of Schools.

February 1, 1924.

We fully appreciate the co-operation of the citizens, parents and pupils, during the past year, and especially of those who so kindly and willingly gave their time to improve the school property.

Our school buildings are in excellent repair and by small expenditures from time to time can be kept in a satisfactory condition. The greatest present need, is an increased wood space, necessitated by the large amount of fuel required on account of the lengthened school year, and by the addition of such space, it will reduce the fuel expense to the minimum, by purchasing and housing green wood for use the following year.

We would urge our pupils to continue their elementary studies, until graduated, and then enter The Quimby School, thereby obtaining higher education. The future welfare and government of Sandwich depend upon the coming generations, and by an advanced course of study they are better prepared for the responsibilities of life.

LILLIAN T. HEARD,
JULIA SHERMAN SMITH,
ALBERT B. HOAG,

School Board of Sandwich.
